I am requesting to be exempt from the North Dakota State Board of Higher Education meningococcal immunization requirement because I adhere to a religious or philosophical doctrine whose teachings are opposed to such tests and immunizations. It is understood that if a meningococcal outbreak should occur on campus I will be required to stay away from campus at my own expense until the outbreak is resolved and will not be allowed to attend on- campus classes or stay in campus housing for the duration of the outbreak. I also agree to keep my contact information current with the Student Health office while I am a student at Dickinson State University.
